

## ***Inclement Weather Route Changes***

**Attention Parents:** The Inclement Weather Route Changes will only be in effect if announced by the District via; District Website, TV/Radio Stations, and/or by District Telephone Notification System. It also will only affect the bus stops that are listed below. For the stops listed below there is a ❄️ symbol marking the inclement weather bus stop on your child's bus route map. All other regular stops will be as close to normal schedule as possible. Please also note that these times are approximate. In the event of inclement weather there will likely be delays and variances in the times that your bus will arrive. Another change could be that the district has to delay the start time of school, or that we have to excuse students early. In the event of this happening, please adjust the times accordingly. We understand that inclement weather is also likely to cause you delays or obstacles, if it is more convenient to catch the bus at another scheduled stop on your child's morning route, please do so. If you need to schedule an alternative afternoon drop off address that is not listed for your child, this will have to be done through your child's campus office.

If you feel that your address should be added to the list of route changes due to difficulty for the bus, or if you have any questions regarding these changes, please contact:

Jason Barrett  
Transportation Director  
479-736-2022 Office
