

Family and Community Engagement Plans

...

23-24

District Plan: 23-24

We hold many on-site engagement events each year. We look forward to welcoming more families into our schools as our district continues to grow.

Incorporating a variety of Communication Avenues (ie: Talking points, Remind, Google Meet, Class Dojo, Google Sites, Seesaw.)

To assist with communication with our non-English speaking students and families, we also employ Spanish translators.

As we are having continued success, we will continue with HRT, Lead and Master Teacher programs.

We are excited that we have our first teacher completed the full HRT program and is a HRT Level Three, Melinda Ramsey. An additional teacher completed Level One-Annie Andrews

Laundry Facility opened for students and their families experiencing homelessness.

The District Community Engagement Team will meet on May 2 to refine plans and make any changes necessary for the 23-24 school year.
