WO-32004	Josh McBride	Coye Cripps, Sam Neale	Gentry High School	The water hose for the sink closest to the door in the changing room has come undone and is spraying water on the floor when it is used. I have put the water hose back up into the sink, so that if someone turns it on it will spray into the sink itself, but it looks like the cabinet flooring under the sink is fairly water logged and may be in the early stages of rotting. I'll try to take a look at it sometime this afternoon to see if I can't get a basic fix on it, then y'all can come finish up the job.	2024-04-15

WO-31982	Mary Adams	Bob Hollaway	Gentry Intermediate School	My para and I no longer have a key to unlock the door leading to the washing machine and dryer in my room. When school began, the key that opened my classroom door also opened it. When it was changed, that key no longer worked. So, we have been keeping it unlocked. However, there is always the chance it would be locked, and we could not get in there. I do use the washing machine and dryer. I think it is locked due to the fact that that room is considered SLE, and we sometimes have students that get into things they shouldn't even after told no.	2024-04-11
