Director of Technology and Innovation

📄 Director of Technology and Innovation job description.docx

Notes

This meeting is to address and vote on two items: 1) change to the 23-24 calendar and 2) new position, director of technology and innovation.

Item #1:

Discussed the results of the Make Up Day vote sent to staff and parents.

- The vote showed majority of staff and parents opted yes for having school on April 19th to make up the fifth and final day of school with the end date being May 24, 2024 for students.
- Since PPC creates the calendar, any changes require a formality vote.

I move to approve the 23-24 calendar change.

All in favor: PPC unanimously voted that we will have school on April 19, 2024.

Item #2:

Director of Technology and Innovation

- This may be a classified or certified position therefore this information is being shared with both PPC and CPPC.
- It is a director position that encompasses both technology and innovation and will address multiple areas including cybersecurity, eschool, compliance with new laws and regulations coming from the state.
- This position will be taken to the school board for approval on Monday night.

I move to approve the director of technology and innovation position.

All in favor:
